

THE BROKERAGE

Exclusive Internship Programme

COMING
SOON

The Brokerage's Summer Placement Programme (SPP), running from June until September is coming your way! This includes *paid internships* from selected corporate companies that are *virtual, hybrid or face to face*. Recruitment for the Summer Placement Programme will start in October 2023 and finish in July 2024.

It's a *blind recruitment process*, run by us. This means, when applying for the role you will only see the job title and the job description, not the details of the company the placement will take place in.

For some placements there is an added bonus of gaining a permanent position, another work experience or a scholarship.

FAQ's

If applications are blind, how do I write my cover letter?

Remember you are applying for the job role not to the company! So, add the job title to your cover letter where you would normally add the company name.

Is the pay minimum wage?

We encourage our partners to pay London Living Wage and above for roles in London. For roles outside of London we ask for National Living Wage and above.

What does it take to be shortlisted for one of the placements?

Tailor your cover letter and your answers to the application question towards the role! Check spelling, grammar and punctuation before submitting your application. Also, make sure you talk about your lived experience and demonstrate clearly that you are eligible for the role by adding your skills and where you have used them!

What roles can I expect to find when I apply for SPP roles?
